Brookes Moscow School Boarding

LOCATION	YEAR FOUNDED	CAPACITY	AGES	RESIDENTS ROOMS
MOSCOW, UL. VILGELMA PIKA, 16	2022	80	+11	2-3

Brookes Education Group is delighted to announce the launch of their latest premium educational development, in the heart of Moscow, Russia. The Brookes Moscow Boarding House will be the first-ever student residence, within an International IB Continuum School in Moscow.

Opened in late August 2022, the residence offers up to eighty (80) residential places for students on a full-time, 7-day boarding experience or on a 5-day, weekly boarding option. Furthermore, in the initial year, there will be an opportunity for flexible daily boarding stays.

Under the care and guidance of experienced resident staff, children from age 11+ are fully supervised 24/7, guided in their studies after school, take evening meals with their friends and are part of the extended Brookes community at evenings and weekends.

**A very comfortable, safe and happy place for the students, a true
"HOME AWAY FROM HOME"
for each child**

WHY A BOARDING SCHOOL?

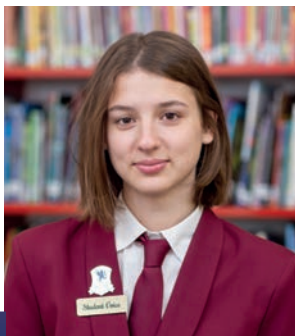

This is obvious to professionals working in boarding schools and not always clear with parents and staff who have not experienced this form of education. When parents choose a boarding school built on international standards, they are guaranteed an excellent desired result. Teachers and boarding staff have more time for educational and creative pursuits with their pupils. The very essence of compliance with international safety standards implies the harmonious and safe development of each child, in a school atmosphere in accordance with the school mission and values.

These standards cover all aspects of our boarding school, from the safe hiring of staff to our high levels of pastoral care.

BOARDING PREFECT KSENIA LOBANOVA

This year I got an incredible opportunity to stay at the Brookes boarding house in Moscow. It is my first time living away from home, and even though I've been to several summer camps, it never felt so real and close to the real world. The house parents are extremely friendly and supportive, and so are the boarders. It's an extraordinary experience for me as I get to live with my classmates and communicate with them outside of school.

Living under the same roof definitely has an impact on our bonding as a team. Year 13 is generally a very stressful time in terms of deadlines and exams but at the boarding we have daily prep time so that we don't fall behind. Finally, despite all the care and attention that we are provided with, I feel like living at the boarding house teaches us independence that most of us will need next year.

WHY DO MORE AND MORE PARENTS IN RUSSIA, AND PARTICULARLY MOSCOW, CHOOSE A BOARDING OPTION?

Over the past 25 years, Russia has been developing its own unique education system based on original national characteristics and its cultural code. Over time, adopting foreign experience and approaches to education has proven beneficial to families wishing for an international perspective and the opportunity to prepare their children to enter universities in other countries. The benefits of children living in their educational space together with classmates, under the supervision of experienced educators, psychologists and medical professionals, allows for holistic care and attention round the clock.

CULTURAL EXCURSIONS

Brookes Moscow finds itself amidst the rapidly developing area of Moscow, near the picturesque Yauza river and one of the most ecological, serene and green areas of Moscow. From here Brookes students can easily be transported to almost all of the main museums (Space Museum, Tretyakov Gallery, Pushkin State Museum of Fine Arts, the Moscow Planetarium, State Historical Museum, etc.) and other educational venues in Moscow. A considerable bonus is a very close proximity of the eponymous Botanical Garden which is easily spotted from the school windows.

WHY BROOKES MOSCOW BOARDING HOUSE?

As the only international IB school in Russia accordingly, we apply high standards of safety and well - being for our pupils. Brookes Moscow belongs to an international group of schools, and we take our reputation and results very seriously. Our students enter many of the world's top universities. Under the care and guidance of experienced boarding staff, children from eleven years of age will be fully supervised, guided in their studies after school, take meals with their friends and staff and belong to the extended Brookes community during evening and weekends. The boarding house is situated in a secure and separate area of the Huaming Business Centre family accommodation building, a 5-minute walk from school. The high-quality apartment style living will provide pupils stylish and comfortable en-suite rooms, with common areas and kitchens to relax and socialize. There are dedicated medical facilities and 24/7 security within the boarding areas. Brookes offers a compelling case for parents who wish the best international "home away from home" education for their children.

BOARDING PREFECT SIWOO JANG

Experience at Brookes Moscow boarding house is a step towards an independent life. At Brookes Moscow, being an international school, many students wish to study outside Russia and outside of their home countries. I am certain that the boarding school experience will provide me with an opportunity to get ready for a brighter future and be more self-reliant. Moreover, we go on weekly excursions with teachers on the weekends. These cultural trips enrich our thoughts and widen perspectives to become better students.

KEY BENEFITS

- The only IB Continuum Boarding School in Russia
